ABOUT CHOPTA TUNGNATH

Chopta, often called the “**Mini Switzerland of India**,” is a serene hill station nestled in the Garhwal Himalayas of Uttarakhand. Surrounded by dense forests of pine, deodar, and rhododendron, it offers breathtaking views of snow-capped peaks like Nanda Devi and Chaukhamba. The calm atmosphere, fresh mountain air, and untouched natural beauty make Chopta an ideal destination for travelers seeking peace, photography, and light adventure.

Just a scenic trek away lies **Tungnath**, the highest Shiva temple in the world, perched at an altitude of around **3,680 meters**. The trek from Chopta to Tungnath is about **3.5 km** and is considered one of the most beginner-friendly Himalayan treks. The trail is beautifully paved and offers stunning panoramic views throughout. For those wanting an even more spectacular experience, a short hike further leads to **Chandrashila peak**, where you can witness a mesmerizing 360-degree view of the Himalayas, especially magical during sunrise.
